

rtc_get_time

rtc_set_alarm

rtc_is_binary

```
graph LR; A[rtc_get_time] --> C[rtc_is_binary]; B[rtc_set_alarm] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes with black borders contain the text 'rtc_get_time' and 'rtc_set_alarm'. On the right, a gray rectangular box with a black border contains the text 'rtc_is_binary'. Two blue arrows originate from the right side of the 'rtc_get_time' box and the 'rtc_set_alarm' box, both pointing towards the left side of the 'rtc_is_binary' box. This suggests that both 'rtc_get_time' and 'rtc_set_alarm' depend on or interact with 'rtc_is_binary'.
